

An Amazing Card Trick ...

Take any four cards in your hand in any order and remember the bottom card.

Then do this

- Put the top card on the bottom
- Turn the top card over and replace on top
- Cut the pack anywhere.
- Turn the top two cards over and replace on top
- Cut the pack anywhere.
- Turn the top two cards over and replace on top
- Cut the pack anywhere.
- Turn the top card over and place on the bottom
- Put the top card on the bottom
- Turn the top card over and replace on top

And your card will be turned over from the rest.

I still don't know why it works!
